EXPERIENCE

Product Designer — SRS Acquiom — 2021 - Present
Design and front-end implementation for a suite of products. Collaborating on the creation, application, and expansion of the design systems and design processes.

Product Designer — Onehub — 2019 - 2021
Designed and implemented new features and integrations for a Rails-based SaaS product with 1M+ users. Helped facilitate a transition to mobile-first for the web application, launch the Microsoft Office integration, and modernization of the UI.

Designer — Freelance/Contract — 2016 - 2019
Conducted user research, high fidelity interactive mockups, front-end stylesheets, and digital marketing assets for SaaS, web application, and static web experiences. Clients included: Microsoft Office, Smartsheet, Oblige Supply, PIPE AND ROW.

EDUCATION

AAS Graphic Design — Seattle Central Creative Academy — 2019

UX Design Immersive — General Assembly — 2016

BA Special Education — Western Washington University — 2012
